## Dorothy Pyles Proclaimed 1993 Outstanding Citizen

by Leta Mach

Greenbelt's outstanding citizen of 1993 —Dorothy Pyles— by her own admission is a dreamer, but not of impossible dreams. "One of my dearest objectives for Greenbelt is to have it crime free," she said after receiving the award. Although others might think this is an impossible dream, she explains that it isn't, "if each of you would do your part."

And, she added, "If you see something strange, it probably is, so call our Greenbelt police," she admonished the crowd and even obligingly gave them the phone number.

demonstrated that she is one of the greatest neighbors in Greenbelt. "If you know this person, you have someone who cares about you," explained Renahan. The 1993 outstanding citizen

enfeld said, "I'm extremely pleased that Dorothy's the winner, although she says she doesn't deserve it, she certainly does."

In accepting the award earlier, Pyles had exclaimed, "I'm overwhelmed with the honor. I do not believe that I quite deserve it, but knowing me. I'll take it."

Certainly, the list of her activities impressed the audience Friday night, September 3, as they listened and tried to guess this year's winner. The winner, said Renahan, was not only a caring friend and neighbor, but also active in Greenbelt politics, helped to register new voters, was a member of her neighborhood association board and a founder of the umbrella organization, Greenbelt East Advisory Coalition. By the time her affiliation with crime prevention activities were noted, many people realized it was Pyles they were honoring that night and the applause was spontaneous and loud as she came forward.

Pyles received many gifts in recognition of her outstanding efforts for Greenbelt. These included a "Greenbelt is Great" T-shirt from two young representatives of the Greenbelt Nursery School, a weekend for two at any Holiday Inn or Coakley Williams-owned hotel, a Greenbelt Arts Center full season pass and a lifetime video membership from Centre Video. Last year's outstanding citizen, Mike Burchick, also presented her with the Cipriano plaque. She was honored by the 23rd district delegation as Delegates Mary Conroy, Jim Hubbard and Joan Pitkin presented a proclamation. Hubbard also presented a citation from the Governor. State Senator Leo Green presented a proclamation and a state flag.

The occasion, Renahan noted, was an historic one, in that Pyles was the first resident from Greenbelt East to receive the award.

## White Files for City Council

Incumbent Thomas X. White has filed his papers to run for city council in the November 2 City Council election. The News Review is publishing the resumes of each candidate. Resumes are prepared and submitted by the candidates.

Thomas X. White has lived in Greenbelt with his wife, Helen, and family for the past 34 years. They have resided at 8 Woodland Way for the last 27 years.

White grew up in Northeast Washington and was educated in the parochial school system through graduation from Gonzaga College High School in 1953. After attending Georgetown University for one year, he enlisted in the U.S. Navy and served for five years as a Medical Corpsman.

In 1959, White enrolled at the University of Maryland, and moved with his family to Greenbelt. In 1962, he earned a B.S. degree in microbiology and has worked for the past 31 years in the field of medical technology.

For the past 17 years he has worked for the Pharmaceutical Manufacturers Association where he is Associate Vice President, Manufacturing and Quality Control.

White began his active community service in 1962 when he served with the Greenbelt Jaycees, the Citizens for a Planned Greenbelt, and various committees and elective offices in the Greenbelt Homes, Inc. (GHI) cooperative. He served on the GHI Audit Committee for three years, the GHI Board of Directors for four years, and served as the treasurer of GHI during 1973-74. He was one of the founders of the Greenbelt Save Our Community Committee (SOCC). SOCC was instrumental

Dorothy Pyles is probably best known for her work with crime prevention. She created one of the first neighborhood crime watch organizations in Greenbelt, expanded it and then helped other neighborhoods that wished to start similar efforts. Pyles was also an original member of the city's crime prevention committee on which she served for many years.

"To some," said Tom Renahan, outstanding citizen chair for the Labor Day Festival Committee, "crime is a challenge which has to be met. In Greenbelt, the challenge was met by a senior citizen with an attitude who decided to take a bite out of crime."

County Councilman Richard Castaldi also noted the oite and bark of this year's outstanding citizen as he presented her with a citation from the county government. He added, "She made our crime prevention program, if she wasn't here, it wouldn't be here."

But fighting crime was just one of the reasons Pyles received several nominations for Greenbelt's outstanding citizen. Because of her caring, sharing and helping nature, she has earned many friends in Greenbelt. The nominations clearly

## Center School Passes to City

by Betsy Likowski

Greenbelt Center Elementary School was symbolically given to the city of Greenbelt at a ceremony after the Labor Day parade when a giant key and proclamation were given to Mayor Gil Weidenfeld by Suzanne Plogman, Greenbelt's representative to the Prince Georges County school board.

The ceremonies took place on the Labor Day Festival stage on Labor Day about noon. The program included an encore presentation by the new Miss Greenbelt singing "Stuff Like That There" and Weidenfeld presented and thanked many of the people involved in bringing about the renovation project of the old Center School into the new Greenbelt Community Center.

June 14, 1993 was the last day of school in Greenbelt Center Elementary School and the last day of an era, said Plogman. Opened in 1937, the building

functioned as a school for 56 years.

The teachers, students, and staff have fond memories of Greenbelt Center Elementary School, said Carolyn Goff, principal of both the old and the new Elementary School. We look forward to coming back for a visit, she said. There will be an open house at the new school when all the kinks are ironed out, she added.

The mayor and city council of Greenbelt presented Goff, Plogman, and PTA president Sherry Hyde a Greenbelt city flag for the new school. Goff promised it would be flown over the new school.

### Renovation to Begin

Renovation of Center School to create the Greenbelt Community Center will begin this fall and will be completed in 1995, said Weidenfeld. It is the largest capital improvement project the city has undertaken and follows a series of capital projects the city has done since 1987, he said.

The Community Center will preserve an historically significant structure and one of the leading examples of Art Deco architecture in the nation, he added.

Plogman presented Weidenfeld a proclamation from the school board.

### Video ID's at Fair

MultiVision Cable TV will again collaborate with the Prince Georges County Police Department to sponsor a booth at the County Fair and provide free of charge children's video ID's and fingerprinting cards.

These services will be available on Saturday, September 11—noon to 4 p.m. and Sunday, September 12—noon to 4 p.m.

The video will show at least 20 seconds of the child with the name, date of birth, height, and weight appearing on the screen.

The Fair is held at the Prince Georges County Equestrian Center in Upper Marlboro.

## A Great Festival

There are so many different things going on, there are so many different groups involved, there are so many different volunteers involved, it's a wonder that it can all go together. But each year, the many pieces not only fit together, they result in a bigger and better Labor Day Festival. This year, with the cooperation of the ever fickle Mother Nature, the Festival was great.

Sure there were glitches, foul-ups and crises—there always are in something like this. They were not allowed to spoil the weekend, however, and they didn't prevent those who attended and those who participated from having a great time.

The Labor Day Festival is primarily for the kids—the rides, the contests, the parade, the Queens Pageants, the bands—and they were there enjoying it all. However, if truths be known, we think that the many adults who worked so hard to make the Festival come off really got the most pleasure from it, even though it will probably take a week or more for them to recuperate.

Everyone who participated deserves a big pat on the back. Congratulations to each and everyone, and, in particular, to Bobbi McCarthy, the retiring Chair of the Festival Committee, and to Dorothy Pyles, the person who this year represented all of Greenbelt's outstanding citizens, recognized or not.

## Bridge Rehab Work Begins on MD 202

The State Highway Administration (SHA) announces that rehabilitation work will begin in early September on two bridges on MD 202 (Landover Road, near Cheverly). The project should be completed by spring 1995.

Intermittent lane closures in the bridge areas will occur during off-peak traffic hours. No lane closures will occur from 6 a.m. to 9 a.m. and 3 p.m. to 7 p.m. Variable message signs will guide motorists through the construction sites.

### Two Dreams

To the Editor:

Greenbelt has just had two highly significant events—the opening of the new Greenbelt Elementary School, and the City receiving title to the Center Elementary School for its use as a community center.

These events partially fulfill the dream of a small group of folks who met four years ago to consider the educational, cultural, and other community needs of Greenbelt. They evaluated alternatives, considered feasibility and risks, and developed proposals. They also pooled their resources to pay for News Review ads.

Two broad community discussions took place—what did Greenbelt want, and how would it be paid for? Two community votes were held—one on a new school vs. a remodeled Center School, and one on a \$3 million bond issue for changes to the Community Center. Both results were close, and the new school and the funding were approved.

These are exciting times. The parents, children, and faculty are very pleased with the new school building, and the rest of us are looking forward to an open house. The Community Center plans are progressing, with active participation by both former proponents and former opponents—it is truly a community project.

Greenbelt citizens dared to dream, and organized to achieve that dream—just as its pioneers did. Once again, creative people are building solutions to meet the dynamic needs of the future.

## PROCLAMATION

WHEREAS, since the first citizens moved into this planned community in 1937, volunteers have contributed much to the quality of life we cherish—volunteers who formed the Greenbelt cooperatives, the churches, the newspaper, the youth and civic associations, and the many other organizations that advance the community spirit which makes Greenbelt the special place it is today; and

WHEREAS, the selection of this year's OUTSTANDING CITIZEN was again a task made difficult by the quality of nominees and the remarkable record of their contributions, but was a choice made easy when consideration was given to the high esteem in which this year's OUTSTANDING CITIZEN is held by the very large number of people who placed her name in nomination, describing her as someone who is a:

Builder of bridges necessary for smooth relationships.

Charter member and office holder of a large number of community organizations.

Very active member of the Eleanor and Franklin Roosevelt Democratic Club, poll worker and enthusiastic participant in political events.

Gardener who plants and maintains four gardens in her community, bearing much of the cost herself.

Friend and neighbor whose affection and care for others is unbounded - "a breath of home in a sometimes hostile world."

NOW, THEREFORE, it is with great pleasure that I, Gil Weidenfeld, by authority vested in me by the Council and the citizens of Greenbelt, hereby issue this Proclamation in honor of

Dorothy Patterson Pyles

Outstanding Citizen of Greenbelt — 1993

in recognition of her concern, dedication and loyalty to the entire city. As stated in one of the eleven written nominations received, which were signed by fifty-five of her fellow residents, "Dorothy's dedication to Greenbelt and its people has been an inspiration to the young and not so young. She gives of herself to all as if they were her own children." Dorothy's dedication to exemplary civic service is well known, for it has been her hallmark since she came to live in Greenbelt.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Greenbelt, MD. to be affixed this 3rd day of September, 1993.

### Pres. of Legion Auxiliary Assists at Girls Nation

Meredith (Rusty) Beeg of Lanham, became a volunteer Girls Nation Communications staff member at the American Legion Auxiliary's 47th annual Girls Nation, a government education program for outstanding teenage girls.

Beeg, Unit President of the Greenbelt Auxiliary Unit No. 136 for four years, is a contracts specialist for the ADP branch of the National Oceanic and Atmospheric Administration. She assisted in the Girls Nation public relations office during the week-long citizenship program at Marymount University from July 17 to 23 where 96 high school juniors from 48 states (2 delegates from each state), spent the week studying the function of national government. These young "Senators" coordinated political campaign activities for party candidates, visited with their state representatives and senators, and laid a wreath at the Tomb of the Unknowns at Arlington National Cemetery. At the end of the week, the girls visited the White House, where they met with President Bill Clinton and First Lady Hillary Rodham Clinton and presented the bills they had enacted during their own congressional sessions.

Girls Nation is the culmination of the Auxiliary's Girls State programs, conducted each summer in almost all 50 states. Each year, 25 thousand young delegates learn the mechanisms of state and local government in Auxiliary Girls State programs. Two girls from each state are then selected to participate in Girls Nation.

The Girls Nation experience teaches leadership skills, confidence and poise. "Senators" learn what it means to be a dependable team player, and how to win and lose gracefully. They develop life-long friendships and gain a new perspective on the rights and responsibilities of good citizenship.

# P.G. County Council Will Consider Remedies for Congested Roadways

by James Giese

Two bills are before the Prince Georges County Council that are intended to reduce traffic problems in areas where highways function at unsatisfactory service levels. The bills, CB-61-1993 and CB-62-1993 were presented on April 27 by Councilmember Stephen J. Del Giudice who chaired the County Council's Growth Policy Subcommittee. They have been referred to the Housing, Planning and Transportation Committee for further study. The Committee scheduled consideration of the two bills on May 24 but held them over to an unscheduled meeting in September following the Council's summer recess.

CB-61 would establish a Transportation Demand Management (TDM) process for commercial and industrial developments located in centers or parks or in buildings located upon a single subdivided lot which employ more than 25 persons. TDM Districts (TDMD) are created by the County Council in areas where intersections or interchanges are operating at unacceptable levels and there are significant traffic generators (i.e., employers) within the district.

Before a TDMD is created, a transportation system capacity analysis has to be conducted by the Prince Georges Planning Board and the results have to

indicate that existing and proposed land use will generate greater use of the road network than its capacity and a public hearing must be held. Once established, all property owners affected will be required to comply with the objectives of trip reduction or show cause why such compliance is not required.

**Two bills are before the Prince Georges County Council that are intended to reduce traffic.**

## TDM Plan

Once established, each property owner must submit within six months a TDM Plan (TDMP) which identifies existing daily and peak period vehicle and employee trip generation for the property and strategies for trip reduction, including quantified objectives. The TDMP must include a plan for monitoring and evaluating procedures and a proposed TDM Agreement.

Each TDMP will be reviewed by a TDM Technical Advisory Committee (TDMTAC). If the plan is found to be acceptable, the TDMTAC will enter into a TDM Agreement (TDMA) with the property owners which shall include mandatory objectives for peak hour and/or daily vehicle trip reduction and specific strategies for compliance. Annual compliance reports are required. If the TDMA objectives have

not been met, quarterly reports will be required, and if the objectives still are not met within six months, the county council may amend or modify the program objectives, have further building permits denied or refer the matter to the State's Attorney for legal remedies. The council can also levy a noncompliance fee based on the daily cost per employee of providing public bus seats up to a maximum annual cost of operating a 35-passenger bus. These funds are to be used to provide transit or other trip reduction programs within the TDMD's.

## CB-62-1993

The companion bill, CB-62 deals with traffic generated by new residential subdivisions. Currently, the developer is required to fund or participate in funding roadway improvements to alleviate traffic inadequacies if new development is found to generate peak hour traffic on any major intersection or roadway within the neighborhood area below the minimum acceptable level established by the Prince Georges Planning Board and if there are no plans or funding for improvement in either the county or state capital improvement programs.

Under the proposed legislation, the requirements imposed upon the developer will be changed to require the developer to mitigate the traffic impact on inadequate roadways, but not necessarily totally alleviate the problem. If it is found that projected traffic will be more than 25 percent above the acceptable peak hour service level, the developer will be required to fully abate the impact of all traffic levels to no more than 25 percent above acceptable levels.

If projected traffic is found to be greater than acceptable levels, but less than 25 percent above acceptable levels, then the developer may be required to reduce the traffic impact generated from the new development by more than 150 percent, i.e., the developer will need to take measures to either increase traffic capacity or reduce traffic

volume by not only the amount of traffic to be generated by the new development but an additional 50 percent of that. Traffic could be reduced by such means as providing bus transportation or encouraging car pooling.

In some instances where there is a small development proposed, the developer will be responsible for a pro-rata share of the mitigation costs.

## Good Initial Step

CB-62 is intended to improve the county's adequate public facilities requirements and establish a transportation mitigation strategy that will reduce the amount of traffic in an area currently operating at unacceptable levels while allowing development to proceed. According to Del Giudice, CB-62 "should be seen as a good initial step. . . . It is designed to encourage greater cooperation and creativity where growth is difficult."

Celia Wilson, Director of Planning and Community Development for the City of Greenbelt expects the city council to formally consider the proposed legislation at its next meeting.

As to CB-63, Wilson believes that there is a need to better formalize the process for transportation demand management. In particular, she feels that there needs to be a more defined role for municipalities in the process, including a two-thirds super majority vote requirement for the county council to override a municipal recommendation.

## Greenbriar Softball Team Places Second

The Greenbriar Co-ed Softball Team finished in second place in the Greenbelt Softball Spring League with six wins and two losses. They gave first-place Windsor Green (7-1) its only defeat.

The final game of the season was against CVI. The game was one of the best of the season. Greenbriar, down 18-10 in the fourth inning, came from behind to win 20-19, holding CVI to one run in the last two innings.

The team will play in Greenbelt's tougher fall league. Friday evenings at Braden Field in Greenbelt city. Greenbriar was 3-5 in both leagues last season.

In 1973, White was first elected to the Greenbelt City Council. He has served 10 terms. While on the council he has actively participated in county, regional, state, and national organizations dealing with municipal affairs and currently fills the following leadership roles:

White also remains active in the GHI Housing Cooperative, serving on the corporation's Finance Committee, Bylaws Review Committee and, during the past year, as a member of the GHI Search Committee for recruitment of a new General Manager.

Previously, White served for 10 years (1981-1992) on the MML Board of Directors and on the Board of National League of Cities in 1983-84. Since 1984, he has served on the NLC Advisory Council where he has participated in the development of "Futures" reports on "Diversity in Local Government," "Families and Communities," and "Cities and Towns in The Global Economy."

White is a member of Greenbelt American Legion Post No. 136, Citizens for Greenbelt, and the Greenbelt Consumer Cooperative. He is a charter member and former president of the Eleanor and Franklin Roosevelt Democratic Club. He was appointed by the city council to serve on the Board of Greenbelt Access Television (GATE), an organization formed to promote community access on cable television. An avid Redskin fan, he has worked as a Redskins usher for the past 34 years. In 1988, he retired from the U.S. Naval Reserves after 34 years of service.

# GHI Board Employs Search Firm, Deals With Member Concerns

by Sandy Smith

The Greenbelt Homes, Inc. Board of Directors should be able to begin interviewing candidates for the position of general manager in 60 to 90 days, Robert Slavin of Slavin, Nevins and Associates, Inc. indicated at the August 12 GHI board meeting. Slavin's firm was hired to recruit and screen potential candidates for the job. The board also discussed the recent fire, procedures to help members protect their property, trees, subleasing, delinquency letters and resale inspection procedures.

GHI has hired the firm of Slavin, Nevins and Associates of and light, causes mildew in the consultant for a new general manager. This search firm, which was responsible for the search for a new city manager in Greenbelt, is familiar with the city and its unique characteristics. Slavin plans to advertise in local newspapers (recently an ad appeared in the News Review). Subsequently GHI Board of Directors President Al Freas indicated that the process for the search has been finalized and the search for potential candidates has just begun.

## Trees

A request to have a troublesome holly tree removed initiated a discussion of GHI's policy on tree removal—basically don't—and guaranteed that the item would come up again for a full discussion. The members complained that the holly tree grows too close to the unit, blocks air and light, causes mildew in the unit, shades the lawn so grass will not grow, and is home for numerous birds who have soiled the windows and exterior of the home. They described the situation as unsanitary and undesirable. Transplanting the tree and bird deterrents were discussed.

Several board members outlined GHI's policy on trees which can't be removed unless they are diseased or have an adverse effect on the property. GHI's overriding principle has been to protect, maintain, and promote trees on its property. Director John O'Boyle agreed

that the members were concerned about the aesthetic environment and that their request was certainly not capricious. He said, "your home is your castle, but it's part of our castle, too."

The Woodlands Committee had investigated and had recommended that the holly tree remain. Although sympathetic to the problem, the board declined to permit the tree to be moved, fearing that this would set a precedent. The board also referred GHI's tree policy to the Architecture and Environment and Woodlands Committee for review and recommendations. When those reports are received this particular situation will be reevaluated. Board Member Chuck Hess urged that the matter be brought back to the Board as soon as feasible to provide a timely response to the members.

## Fire Update

Paul Sinner, acting general manager, described the fire that occurred on August 1 in a unit on Plateau Place. He indicated that there was only a small amount of structural damage to the unit but that virtually all personal property was destroyed. The members did not have personal property insurance. Repairs are underway on the unit.

Director of Technical Services Jay Friedmann provided some history. There have been six fires in GHI in the past five years. Four of the fires started inside the unit and none of the members affected had personal property insurance.

Numerous approaches to protecting members against this kind of damage were discussed. GHI could require all members to carry insurance, GHI could obtain insurance and bill the member, or GHI could require members to make a conscious decision to carry or not carry personal property insurance.

While members are informed that their personal property is not covered in GHI's insurance on the unit, they may not pay attention unless specifically asked to accept or decline coverage. Board Member Kathy Weber indicated that this should be a member's decision and GHI should not be responsible if a member neglected to get coverage.

Another suggestion by Director Bill Phelan was to install smoke detectors in each unit, connected to the wiring, with battery back-up. Other Board members mentioned the role of the Fire Department in providing smoke detectors and information on their installation and use. It was decided to place personal property insurance on the agenda at a future meeting.

## Subleases

Several subleases were approved; a member who wishes to move his growing family to a larger unit, a member who wishes to offer his son more time to become financially able to take over the family unit, and another member whose renters need additional time to save their down payment.

## Delinquency Letters

Manager Sinner presented the four delinquency letters that are sent to members who are in arrears to GHI as well as a draft of revision to the fourth, or last letter. Several board members suggested they be stronger in tone. Board member Carole Levin sought assurance that they are sent by certified mail, and board member Don Comis suggested that an itemization of charges be sent along with the letter. Sinner indicated that an itemized letter could be counter productive and that GHI preferred for the member to call and discuss the specific charges. Member Walter Morse and Audit Committee member Ronnie Scot-

## State Tree Program Seeks Volunteers

Individuals and groups of volunteers are welcome to work on the seedling wrapping at locations convenient to the volunteer workers. All supplies are furnished. To volunteer call 779-9444.

kin submitted a revision of the letter for consideration. Other suggestions and recommendations were sought and will be reviewed by staff who will bring back a recommendation to the board.

## Resale Inspections

Staff provided the Board with an overview of the entire resale procedure, the resale inspection standards, and the fees charged related to resales. The board is concerned with charges to members to correct pre-existing conditions to bring units up to current standards. The board initially approved the splitting of the costs between GHI and the member to repair washer drains at the time of resale.

This proposal was withdrawn to allow for further study. Staff was directed to prepare plans to consider paying for the full cost of bringing washer drains up to standard at time of resale and an alternative plan to pay for only half the costs. Staff should also consider how present members might be reimbursed for these costs. Director Comis asked staff to explore the possibility of setting up a warrantee program to cover items that are certified by the GHI resale inspection. He also asked that the staff research other code violations that are pre-existing and supply the buyers with the resale inspection forms. Director O'Boyle asked that staff provide their opinions on window air conditioners. Further discussion of the resale inspection procedures will take place at the next meeting.

## Co-op Logo, Theme Contest

The Co-op Year Anniversary Committee of the National Cooperative Business Association (NCBA), in conjunction with the National Co-op Month Committee, is coordinating a contest to find a theme and logo for the year-long celebration that U.S. cooperatives are planning for 1994.

The celebration is in honor of the 150th anniversary of the Rochdale Cooperative, generally recognized as the birthplace of modern cooperatives. It will emphasize the role of cooperative enterprises in meeting the needs of Americans today and tomorrow.

Participants may submit entries to the "Co-op 150th Anniversary Contest." Each entry should include a statement of the theme and the logo should be drawn in black or color on white paper. Multiple and team entries are permitted. They should be sent to Leta Mach, National Cooperative Business Association, 1401 New York Avenue, N.W., Suite 1100, Washington, D.C. 20005-2160.

The contest deadline is Friday, October 29. The winner will receive a selection of gifts developed for the Co-op Year as well as national recognition, plus a prize of \$500.
